

TIMOTEC

MEDICAL WORK LINES

TIMOTEC GROUP

We are a provider of customized solutions in the fields of isolator technologies, laminar flow systems, automation, robotics, cleanrooms, and their equipment. Our main focus lies particularly in the areas of pharmaceuticals, science and research, the optoelectronics industry, the semiconductor industry, and healthcare.

We have been active in the market since 1999. By combining the professional expertise and technological solutions of the companies belonging to the TIMOTEC Group, we offer comprehensive, tailor-made solutions including fast service. Thanks to our strong know-how, in-house development and manufacturing, and a broad service portfolio, we deliver individual solutions to our customers.

AREAS FOR PATIENT PREPARATION AND RECOVERY IN THE OPERATING ROOM

These **Functional and Hygienic Workstation** combine practicality, durability, and precise craftsmanship to support smooth daily operations. Wall and base cabinets provide ample storage, while adjustable sliding shelves and organized dispensers ensure that essential supplies—gloves, soap, and disinfectants—are always within easy reach.

Careful attention to detail is evident in every component: stainless steel worktops/ artificial stone worktops, invisible hinges, magnetic closures, and soft-edge design create a seamless, hygienic, and elegant workspace. Finely crafted components and silicone seals ensure long-lasting reliability and easy maintenance.
